***Award Conditions to the Financial Assistance Award  
Between the Denali Commission and Alaska Energy Authority  
For Bulk Fuel Consolidation Upgrades, FY07 TAPL  
Award No. 315-07  
July 2007***

***1. Scope of Work***

The scope of work under this Financial Assistance Award (the "Agreement") is to plan and construct, extend, upgrade, and otherwise improve energy facilities, including fuel storage and distribution systems. This agreement may include new funding for projects previously approved on other financial assistance awards, or by written amendment. Those previous agreements are not changed by this award except as related to funding. Any surplus of other funds (on one or more of the projects funded under this Agreement) may be used on other projects identified only under this Agreement that may be experiencing a project shortfall. The intent is not to set aside a specific sum of Commission funding to a particular community, but rather that the projects on "Approved Project List" are completed successfully. This award is funded exclusively with Trans Alaska Pipeline Liability (TAPL) funding which may be used only for bulk fuel projects. The list of approved projects for this award, and initial funding amounts is listed below, and is made part of this agreement.

**AEA FY07 TAPL-1 Award Distribution List**

<b>Project No.</b>	<b>Community</b>	<b>Project Type</b>	<b>Project Phase</b>	<b>Denali Commission Project Funding</b>	<b>Funding Source</b>
340238	Pelican	BFU	Phase 3 construction	\$ 600,000.00	FY07 TAPL
340261	Tyonek	BFU	Phase 2 Final Design	100,000.00	FY07 TAPL
340222	Pilot Point	BFU	Phase 3 construction	1,238,734.00	FY07 TAPL
			Administrative funding		
380002			3%	59,961.00	FY07 TAPL
<b>GRAND TOTAL ALL FUNDING</b>				<b>\$ 1,998,695.00</b>	

There are many issues such as facility location, project ownership, construction costs, and compliance with sustainability criteria that require resolution prior to proceeding with construction. If project issues cannot be resolved in a reasonable time frame, the Commission expects AEA to move down the priority list to projects that are ready to proceed to construction. It is expected that the Commission and AEA Project Officers will meet quarterly to review the progress of projects and collaboratively determine if reasonable progress is being made and what steps should be taken, if any, to deal with new developments encountered in the design and construction process.

AEA may make subgrants to Alaska communities or local utilities to construct the projects, and AEA may act as the subgrantees' agent to plan, design, and construct the projects.

All Commission funding is intended for use for the scope of work identified in the Award document only. Any balance of funds remaining after the full scope of work has been completed will be returned to the Denali Commission.

## ***2. Milestones***

Relevant milestones for each project undertaken with this funding will be identified in the Denali Commission database.

## ***3. Award Performance Period***

The Award performance period is April 1, 2007 through August 31, 2009. This is the period during which Award recipients can incur obligations or costs against this Award.

## ***4. Direct and Indirect Costs***

The cost principles of OMB A-87 are applicable to this Award. The direct cost of AEA personnel time devoted to and identified on their timesheets for the performance of the award, i.e., plan and construct the projects under section 1 of this award, are allowable. In addition, up to 3% of the total costs under this award are allowable for the direct cost of AEA personnel time devoted to and identified on their timesheets for administration of the award.

## ***5. Budget and Program Revisions***

The Administrative Circular, OMB A-102, applies to this Award. Please refer to the Administrative Circular for specific details on revisions to this Award. The Administrative Circular requires that Alaska Energy Authority will inform the Commission in writing (e-mail, letter, or report) at the earliest possible date of any unanticipated project cost overrun, project schedule delays, or changes in the project scope or changed site conditions.

## ***6. Payments***

Payments under this Award will be made through the U.S. Department of Treasury's Automated Standard Application for Payment (ASAP) system. The ASAP system is the Commission's mechanism for requesting and delivering Federal funds to Award recipients. The recipient must be registered with the ASAP program in order to make draw downs. Please contact the Commission's Finance Manager at (907)-271-1414 for further information about registering with the ASAP program. Payments shall be made in accordance with OMB Administrative Circular A-102. **No interest will be accrued on these funds.**

## ***7. Reporting***

Three forms of project reporting are required under this Award, listed below. Alaska Energy Authority shall submit reports using the Denali Commission's on-line Project Database System, available at [www.denali.gov](http://www.denali.gov). If there are technical limitations which may prevent the recipient from meeting this requirement, please contact the Program Manager listed in this agreement.

- a. **Progress Reports** shall be submitted on a quarterly basis. The first reporting period is April 1, 2007 through June 30, 2007 and quarterly thereafter. Reports are due within 30 days of the end of the reporting period. Progress reports shall include the following:
- i. Total project funding, including both Denali Commission funding and other project funding sources.
  - ii. The total project expenditures for the project as of the end of the reporting period, including both Denali Commission and Other funding sources.
  - iii. Updated schedule and milestone information as identified in the Scope of Work
  - iv. Narrative summary of the project status and accomplishments to date, any problems, overruns and delays, including any type of litigation related to the project; and address the following questions: is the project on schedule, is the project on budget, and what actions are planned to address any project problems.
  - v. **Construction Projects** Photographic documentation of project progress shall be provided with the progress reports for active construction projects. The photo documentation shall include a minimum of three, dated photos per reporting period such that a complete record of the construction is maintained over time, from "before," showing the situation before the start of construction, to "during" showing work proceeding on the project, and "after" to show the finished project. Photos shall be provided in a digital format as part of the on-line report. A short description of the activity and names of those in the photos shall also be provided.
- b. **Standard Form 269A Financial Status Report – Short Form (SF269A)** shall be submitted on a quarterly basis via fax, e-mail or mail. As with the Progress Reports, the SF269A is due within 30 days of the end of the quarter and a final SF269A is due within 90 days of the end of the Award Performance Period. Please note the following:
- i. This report cannot yet be submitted through the Denali Commission On-line Project Database and therefore must be submitted via fax, e-mail or mail.
  - ii. This form is available on the Internet at <http://www.whitehouse.gov/omb/grants/sf269a.pdf>. A link to this site is also available on the Commission's website, [www.denali.gov](http://www.denali.gov), under the "Finance" section. A Guide to Completing the SF269A can also be found on the Denali Commission's website under the "Finance" section.
  - iii. The SF269A may be filled out electronically using the above link. However, the completed SF269A must be printed and signed, and then the completed SF269A must be submitted to the Denali Commission via mail, fax or as a PDF attachment to an e-mail to [finance@denali.gov](mailto:finance@denali.gov).
  - iv. If you have multiple projects under a single Financial Assistance Award, the SF269A is required **ONLY** for the award as a whole, not for the individual projects.
- c. **Federal Single Audits** shall be submitted annually, when required. In accordance with OMB Circular A-133, which requires [subpart 200] "Non-Federal entities that expend \$500,000 or more in a year in Federal awards shall have a single or program-specific

audit conducted for that year in accordance with the provisions of this part [subpart 205]. The determination of when an award is expended should be based on when the activity related to the award occurs.”

Recipients shall also submit single audits to the Federal Clearinghouse as designated by OMB. Information can be found on the following web-site:

<http://harvester.census.gov/sac/>

### ***12. Denali Commission Policies and Other Requirements***

Alaska Energy Authority agrees to comply with the Commission's resolution 01-15 on sustainability, the Commission's sustainability criteria, private enterprise policy, project prioritization policy, pipelines and dispensers policy, project design capacity policy, cost containment policy, and investment policy.

The electric utility systems and bulk fuel systems receiving the benefit of Commission funding must be sustainable as addressed in the Commission's resolution 01-15. As a precondition of construction funding, a project must demonstrate that it is part of a sustainable electric utility or bulk fuel system. Facilities that are owned by the Alaska Energy Authority are considered part of a sustainable electric utility system.

To the maximum extent practicable, considering applicable laws, Funding Recipients shall accomplish the project contemplated by the Award using local Alaska firms and labor.
